PROFESSIONAL SUMMARY

Full Stack Lead and Software Engineer with 5+ years of experience architecting and delivering scalable web and mobile applications using Python, Django, React, Next.js, and React Native. Proven track record leading cross-functional frontend and backend teams on enterprise government projects, including the MSEDCL mobile application. Experienced in cloud integration, REST API development, geospatial data processing, and DevOps practices. Skilled at translating business requirements into secure, high-performance, user-friendly platforms.

TECHNICAL SKILLS

Languages & Frameworks: Python, Django, Django REST Framework, JavaScript, React.js, Next.js

Frontend: React.js, Next.js, React Native, HTML5, CSS3, JavaScript, Framer

Backend & APIs: Python, Django, Django REST Framework, REST API Design, JWT Authentication

Databases: PostgreSQL, SQL

Cloud & DevOps: AWS EC2, Google Cloud Build, CI/CD Pipelines, Vercel

Leadership & Tools: Team Leadership, Git, GitHub, Code Review, Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Full Stack Lead / Software Lead, [Nibe Space \(Nibe Ltd.\)](#)

03/2025 – Present
Pune

- Lead the MSEDCL mobile application project as Software Lead, managing both the Frontend and Backend development teams end-to-end, from architecture and sprint planning to delivery and production support.
- Directed a cross-functional team of mobile (React Native) and backend (Django REST Framework) engineers and releases for a large-scale utility/government mobile platform.
- Architected and deployed internal tools and public platforms across the Nibe Group, improving accessibility and user experience for thousands of end users.
- Designed and built multiple Nibe Group websites — including Nibe Space, Nibe Limited, and GDIL — using Framer, delivering modern, responsive, brand-consistent web presences (see Projects section for details).

Full Stack Web Application Developer, [360 Digital Transformation](#)

06/2022 – 03/2025
New Delhi

- Engineered a full-featured LMS and CMS using Django and Next.js, supporting over 500 trainers and students.
- Streamlined backend operations through custom admin panels and REST APIs.
- Implemented token-based security (JWT) and scalable cloud architecture for multi-tenant platforms.

Web Application Developer, [Presage Insights](#)

01/2022 – 06/2022
New Delhi

- Developed Angular-based frontends and Django REST APIs for enterprise-grade content systems.
- Maintained and optimized key features across multiple client-facing platforms.

PROJECTS

MSEDCL Mobile Application (Utility/Government Platform)

03/2025 – Present

- Leading both Frontend (React Native) and Backend (Django REST Framework) teams as Software Lead for a large-scale consumer-facing mobile application built for MSEDCL.
- Defined system architecture, API contracts, and data models to support high-volume consumer transactions and service requests.

Satellite Tasking System

- Designed a satellite tasking and result interface using React and Django, with BlackSky API integration.
- Enabled AI-powered image reporting, task input, and secure access via JWT.

BuyCommodity

- Built user/admin dashboards integrated with the GST portal for real-time tax functionality.
- Used Next.js and Django for seamless UI and backend management.

GoSkillReady & Trainomart LMS

- Developed LMS platforms for 500+ certified trainers with student/course management features.
- Employed Next.js, Django, and AWS for deployment and scaling.

EDUCATION

B.Tech in Computer Science , <i>Malout Institute of Management & IT</i>	2019 – 2022
Diploma in Computer Science , <i>Govt. Polytechnic College, Bathinda</i>	2017 – 2019
